About

The starting of a family and the birth of a child are the milestones in the life of virtually any woman. But unfortunately children often become merely a bargaining chip for property disputes between the parents, distribution of inheritance or other family problems. In that case a DNA test becomes the key factor to the solution. Each story is much bigger than just a court trial to establish who the father is. First and foremost, it is a story of personal relations where all of the people involved are related to each other. The trial will unfold unexpected facts directly affecting the judgment.
